

## Rescue boat Hatecke RB 400

A fast rescue boat with a space for 6 persons. Buoyancy is held by the tanks filled with polyurethane. These tanks are arranged between the outer hull and the inner section. The boat has a 4-point sling for safe recovery and launching. All fittings are made of seawater-resistant materials and fastened with stainless steel bolts.

**Product code: 1310102100**

**Complies with SOLAS 74 as amended; IMO MSC 48(66), 36(63), 97(73); MED 2011/75.**
